

September 11, 2025: I am being fully immersed into the mindset and way of Donald Trump as he continues to press himself and his agents around my home, my life, and my movements at all times of the day and night. I am expressing to you, publicly, the mindset that his agents are pushing into my home.

I am recording for you that Donald Trump's team is exerting itself as a 'god' of evil that is seeking purity of evil spirit. I am spending my time recording these messages that are sent to me so that anyone can read for themselves the way in which our life has become 'consumed' by the spirit of Donald Trump as Donald forces his thoughts into our home on a daily, weekly, monthly, and yearly basis.

Donald is exhibiting a spirit of 'duality' wherein he believes that he is exhibiting good qualities to the world while he secretly uses evil qualities for his own private advantage. I am expressing that his messages convey a message of eating us, destroying us, shaming us, and misleading us.

Donald's messaging into our home is reflecting all of the evil 'gods' that I am revealing in my study of the Bible and of history. The same spirit that has been watching my work, for years now, is the spirit that I am witnessing deceive the world to this very day. I am witnessing, in real-time (and they did indicate to me that I would be seeing this), the usage of my religious work to invert it for their own perverted benefits and gains.

I am being given the distinct impression that Donald Trump's true goal is to 'inhale' the work that I am producing so that he can 'exhale' it back on to the world as a satanic force of deception, corruption, and evil for his own personal gain.

I am not exaggerating. I am simply repulsed by the frequency by which these messages are being displayed to me and the evil spirit with which they are being manufactured. Yes, I do consider whether I should even continue revealing this knowledge to the world.

But, unfortunately, someone has to uncover this secret hidden evil so that the good people of the world can begin to see it for themselves, to condemn it, and to finally stop being confused by the sophistry that continues to lead us astray to this very day.

I am completing a work of painful endurance to move beyond the evil spirit that has taken root around me in this life in order to reveal the truthful message of God.

Please abandon the deceptions of Donald Trump. Please abandon the deceptions of the devil. And please abandon your sinful and shameful ways so that we can live in peace again.

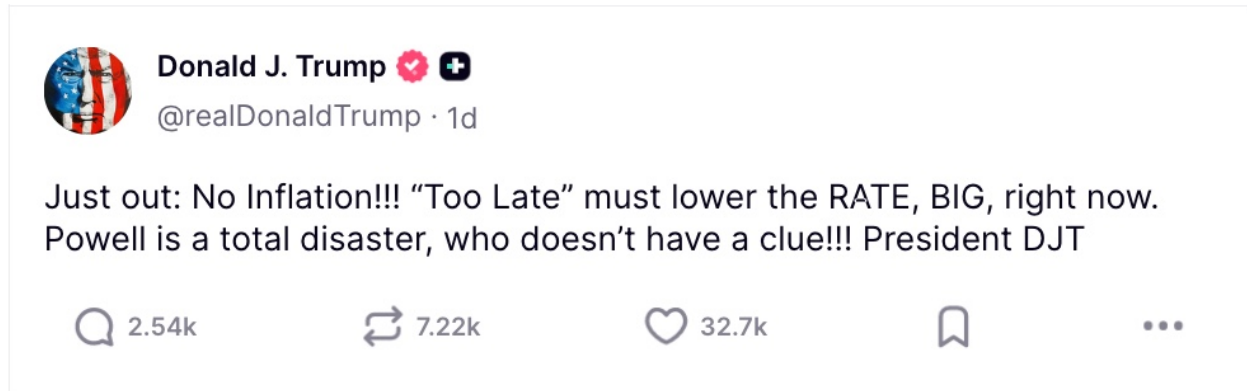

In case you are unable to see it clearly yet: the 'devil' (a body of people corroborating in a spirit of evil) is creating an environment of traps that are designed to 'shame' people into remaining silent while it runs wild over a community and steals the property and life of the good people within it. The evil is creating its own reason to grow and conquer its victims.

I am expressing that Donald Trump's agents are displaying to me a constant campaign of messages that are adopting this as its prideful way of being and delivering its message. Donald Trump's agency is gleefully displaying a mindset of deception, antagonization, and predation against our community and personal home.

Please understand that I am writing these messages in honest translation of the 'sign language' forces that are being displayed obviously to the world.

Take for example, the ‘Truth’ social posts of Donald Trump before the assassination of Charlie Kirk:

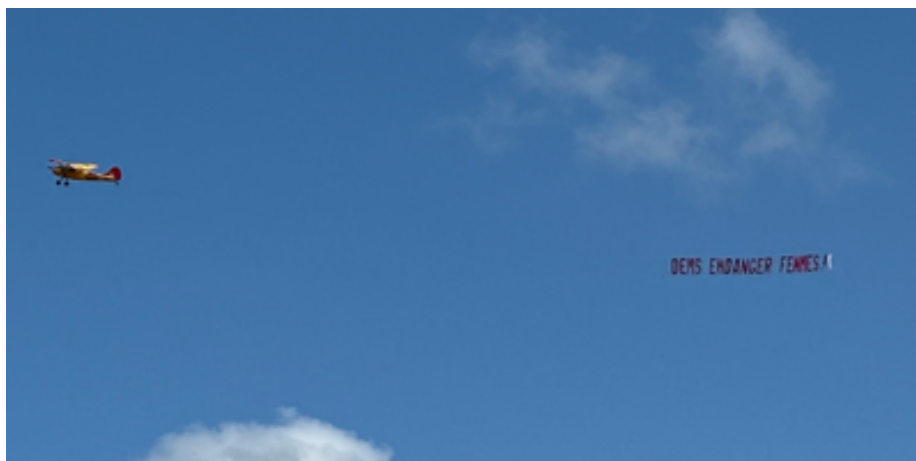

“Too late”

“Here we go!”

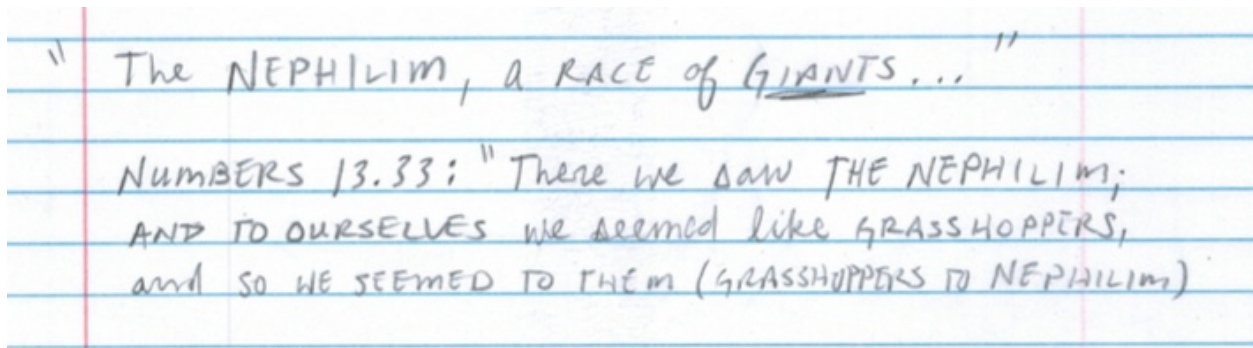

And . . . (A big high-flying SIGN) “Dems Endanger Femmes”
(Setting the stage for his transgender attacks that immediately followed)

This is a thinly veiled 'double speak' that is showing a terrible pattern of threats, premonitions, and correlation to the work that I am producing in my daily work.

One example of the 'echos' that I speak about can be found today. Earlier today I wrote about NEPHILIM in my daily journal. I posted that publicly so that everyone can see things as I write them. This has become so common that I refuse to endure this while they secretly spy on me.

On page three of today's journal I write, 'The NEPHILIM, a race of giants. . . ' (a loud vehicle is driving its exhaust into our home as I write this now).

And now we can see that Donald Trump's personal 'Truth' social account echoes images from my work. (As I have expressed on numerous occasions, this is a consistent and persistent experience in my life)

Donald Trump and his agents are shamelessly spying on my life, my work, and my home while they attempt to threaten us, intimidate us, and extort us into being quiet about this terrible experience.

"Fuck you, Donald Trump. May you rot in hell forever. Your life is a complete illusion of success and you are the epitome of failure"
